About the College

Pudukkottai, the former princely state that was the first to join the Indian Union after breaking away from foreign yoke is indeed an archaeological treasure-house of Tamil Civilization. The Rulers of Pudukkottai have left historical landmarks like buildings, temples, tanks, canals, forts and palaces. Pudukkottai is well connected by road and rail. Tiruchirappalli International Airport is about 50 kms from Pudukkottai.

The Campus

The Karpaga Vinayaga Educational Trust (KVET) was established by the well-known philanthropist and visionary Honorable **Mr. S. Regupathy**, Minister of Law, Government of Tamil Nadu. The Trust has established a number of educational institutions in its Sivapuram Campus, located on SHU 9984 about 6 km from Pudukkottai town. A total of 12 Educational Institutions focusing on various disciplines of study at different levels have been established during the past Three decades. The College has 4000 students at the UG and PG levels, around 50 students in Research Programmes pursuing courses in 19 disciplines. The College is Re-accredited with "B++" Grade by NAAC in Fourth Cycle and is the first self-financing college to secure Autonomy among the colleges under Bharathidasan University, Tiruchirappalli. It has the honour of being a Silver Jubilee Institution.

The Department

The School of Computer Science was started in 1994 and later expanded to include Computer Applications (1995), Information Technology (1999) and Data Science (2024). We are offering under graduate, post graduate and Research programmes and committed to imparting quality education in the sub-fields of IT, a field growing by leaps and bounds. The School has a good record of organizing Seminars, Workshops, Symposia, and Conferences in the respective subject specializations.

About the Conference

This Conference, tries to bring the academicians, Research scholars and Industry professionals working in India and abroad in the field of Computer Science, Information Technology, Computer Applications and emerging areas in the same platform. This will stimulate the associations among them by exchanging ideas in various areas of Computer Science.

This Conference aims to formulate the emerging ideas and goals of mankind. Therefore persons with innovative ideas are welcome to participate in the conference and take the opportunity to share their views and ideas with others.

Objective of the Conference:

The objective of this conference is to provide a platform for academicians and Research scholars in the field of Computer Science to contribute and to disseminate the innovative and important new work. The Conference provides a leading forum for sharing the original Research contribution and practical development experiences among researchers and application developers.

Themes of the Conference:

- Artificial Intelligence
- Artificial Neural Networks
- Data Science
- Big Data Analytics
- Cloud Computing
- Cyber Security
- Internet of Things
- Data Mining and Warehousing
- Fuzzy Logic
- Mobile Computing
- Machine Learning
- Algorithms
- Bioinformatics
- Digital Image Processing
